## PROFESSIONAL SUMMARY

Frontend Developer with 2 years of hands-on experience in Angular (RxJS, NgRx), HTML, CSS, JavaScript, and TypeScript. Currently working at LeadRat CRM, I specialize in building responsive, user-friendly web applications. I also have working knowledge of backend technologies like Python, Django, Node.js, and Express. Passionate about learning modern tech stacks and solving real-world challenges through scalable and clean code.

## EDUCATION

**Bachelor of Computer Applications** (Computer Science) — 2018 - 2021
Sanpada Commerce And Technology — Grade: 8.11/10.0

**Intermediate (Class XII)** — 2016 - 2018
Arya Gurukul International Collage — Grade: 57.47%

**Matriculation (Class X)** — 2014 - 2016
Shree Vivekanand Hindi High School — Grade: 67.4%

## EXPERIENCE

**Angular Developer** — October 2023 - Present
Leadrat CRM — *Bengaluru, Karnataka, India · On-site*

LeadRat is a fast-growing SaaS-based CRM solution in the real estate tech domain, operating across India and Dubai. It integrates with platforms like 99acres, Bayut, MagicBricks, Google, and more.

**Key Responsibilities:**

- Built and optimized critical features in modules like Marketing Automation, Report Generation, Watermarking, Invoicing, and Property Management.
- Delivered frequent bug fixes and performance improvements, ensuring a smooth experience for 1000+ B2B clients.
- Implemented reusable components and maintained scalable architecture using Angular, RxJS, and NgRx.
- Closely worked with backend, QA, and design teams to deliver robust, tested, and user-friendly features.
- Participated in Agile ceremonies (sprints, planning, reviews) and contributed to timely releases.
- Ensured code quality through regular code reviews and adherence to best practices.

**Tech Stack:** Angular, TypeScript, RxJS, NgRx, HTML, CSS, Bootstrap

## INTERNSHIPS

**Internship Certification —— Python Django Jr Developer** — March 2022 - June 2022
Care24 — *Vikhroli(mumbai)*

- Developed APIs and integrated them into CRM dashboards.
- Wrote and optimized PostgreSQL queries for database operations.
- Worked extensively on Django framework and Python.

**Tech Stack**: Python, Django, PostgreSQL

**Python Django Certification** — August 2021 - February 2023
Maxgen Technology — *Vashi Navi Mumbai*

- Completed comprehensive training in Python, Django, and advanced backend development.
- Designed and implemented scalable web solutions using Python and Django frameworks.
- Gained expertise in core Python, advanced Python, and database management.

**Tech Stack :** Core Python, Advance Python, Django

## PROJECTS

**My-Portfolio**, ( Demo ) — January 2024

**Description:** This portfolio website showcases a strong command of React, modern web development practices, and an eye for creating engaging user experiences through responsive design and thoughtful UI/UX elements.

- Designed and developed a modern, responsive portfolio using React with a strong focus on UI/UX and clean code architecture.
- Implemented advanced React features like Hooks (useState, useEffect, useRef, useReducer), Context API, and custom hooks for efficient state management.
- Created reusable components and used React Portals for rendering smooth modals and overlays, enhancing interactivity and scalability.

  **Tech Stack:** HTML, CSS, JavaScript and React, JSX

**Real Estate CRM Software – LeadRat CRM(Internal Product)**,      October 2023

A feature-rich CRM web application designed for real estate businesses to manage leads, properties, projects, reports, user management, attendance, and finances.

**What I Did:**

- Developed dynamic and responsive UI components for booking forms, managed invoices, managed marketing for agency campaigns and channel partners, managed sources, integrations, custom statuses, custom tags, and report automation, and rebuilt modules for managing data, projects, and properties.
- Integrated watermarking functionality in downloadable documents using Angular libraries.
- Handled complex state management using RxJS and NgRx for improved UI performance.
- Designed reusable form elements with conditional rendering to enhance user flexibility and reduce code duplication.
- Created automated report generation tools with date-wise filters and downloadable formats.
- Improved application responsiveness and load times through performance optimizations.
- Actively contributed to Agile sprints, QA testing, and production release cycles.

  **Tech Stack:** Angular, TypeScript, RxJS, NgRx, HTML, CSS, Bootstrap

## CERTIFICATIONS

**Full Stack Web Development —— Bootcamp Training**, Newton School ( Link )      August 2022

- Learned full-stack development, participated in coding contests, and built real-time projects.

  **Tech Stack :**    DSA,HTML,CSS,JavaScript,Node Js,Express Js.

**The Complete Data Structures and Algorithms in Python**, Udemy ( Link )      August 2022

- Gained proficiency in Python data structures, algorithms, and problem-solving.

  **Tech Stack:** Python

**RxJS 7 and Observables: Introduction**, udemy ( Link )      March 2014

- Learned the fundamentals of RxJS and reactive programming with observables.

  **Tech Stack**: RxJs, Angular

## SKILLS

**Computer Languages:** SQL, Python, JavaScript, CSS, HTML
**Software Packages:** React, Django, MySQL, Bootstrap, AngularJS

## EXTRA-CURRICULAR ACTIVITIES

I obtained a Hackathon certificate. My hobby is to learn new technologies.

- Participated in coding challenge based on DSA held by Newton School.
- solved DSA problems on GeeksForGeeks.
- solved DSA problems on LeetCode.
